ULTRA HIGH-GLOSS TILES

## Ultra High-gloss surface

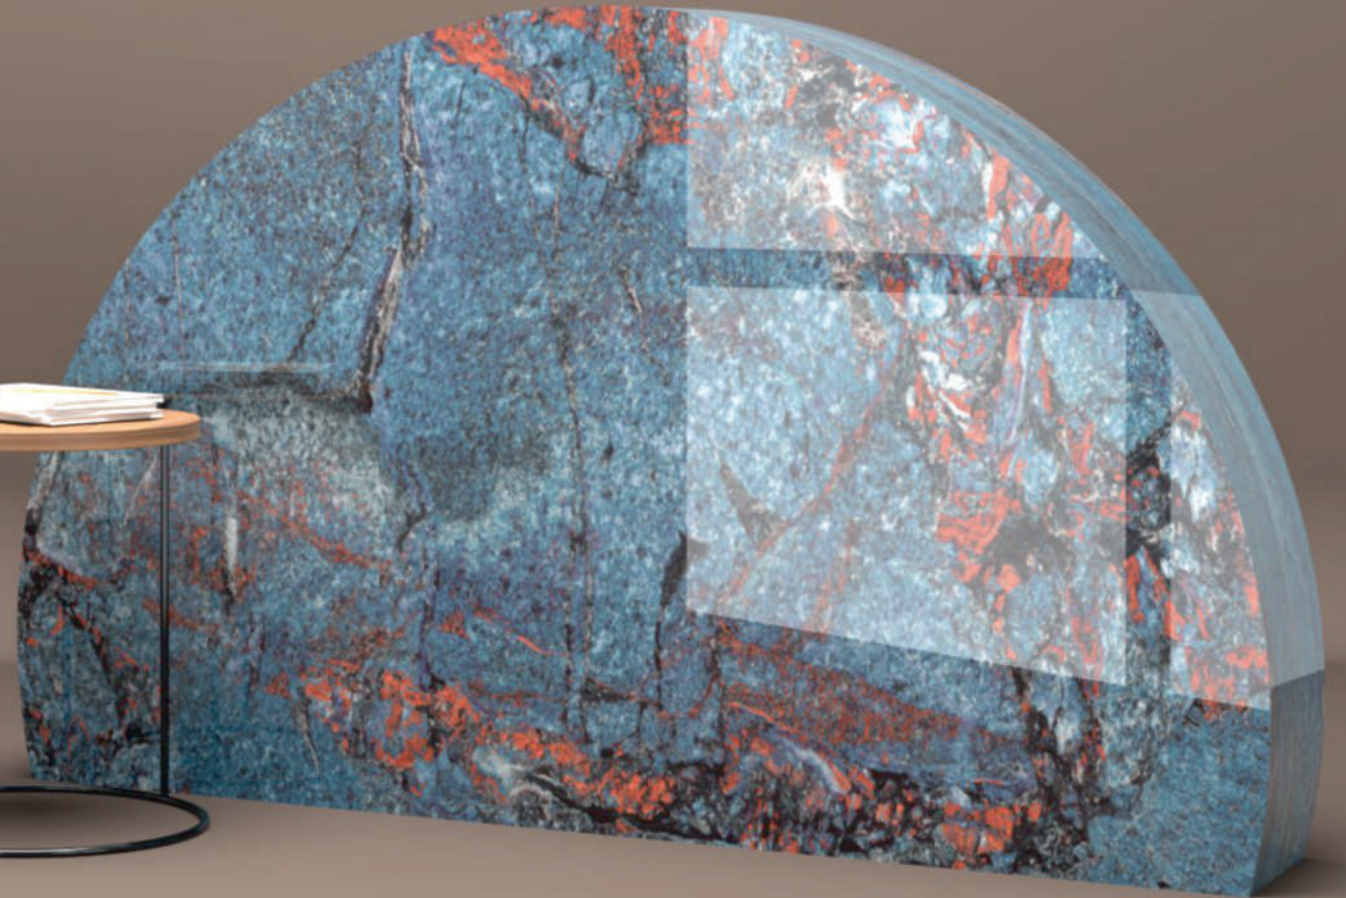

The ultra high-gloss surface of the tiles has a fine reflective quality that gives it a luxurious appeal.

## Hyperrealist design

The designs of these tiles have superior clarity with magnified details that make the design seem real.

## Thermal & scratch resistance

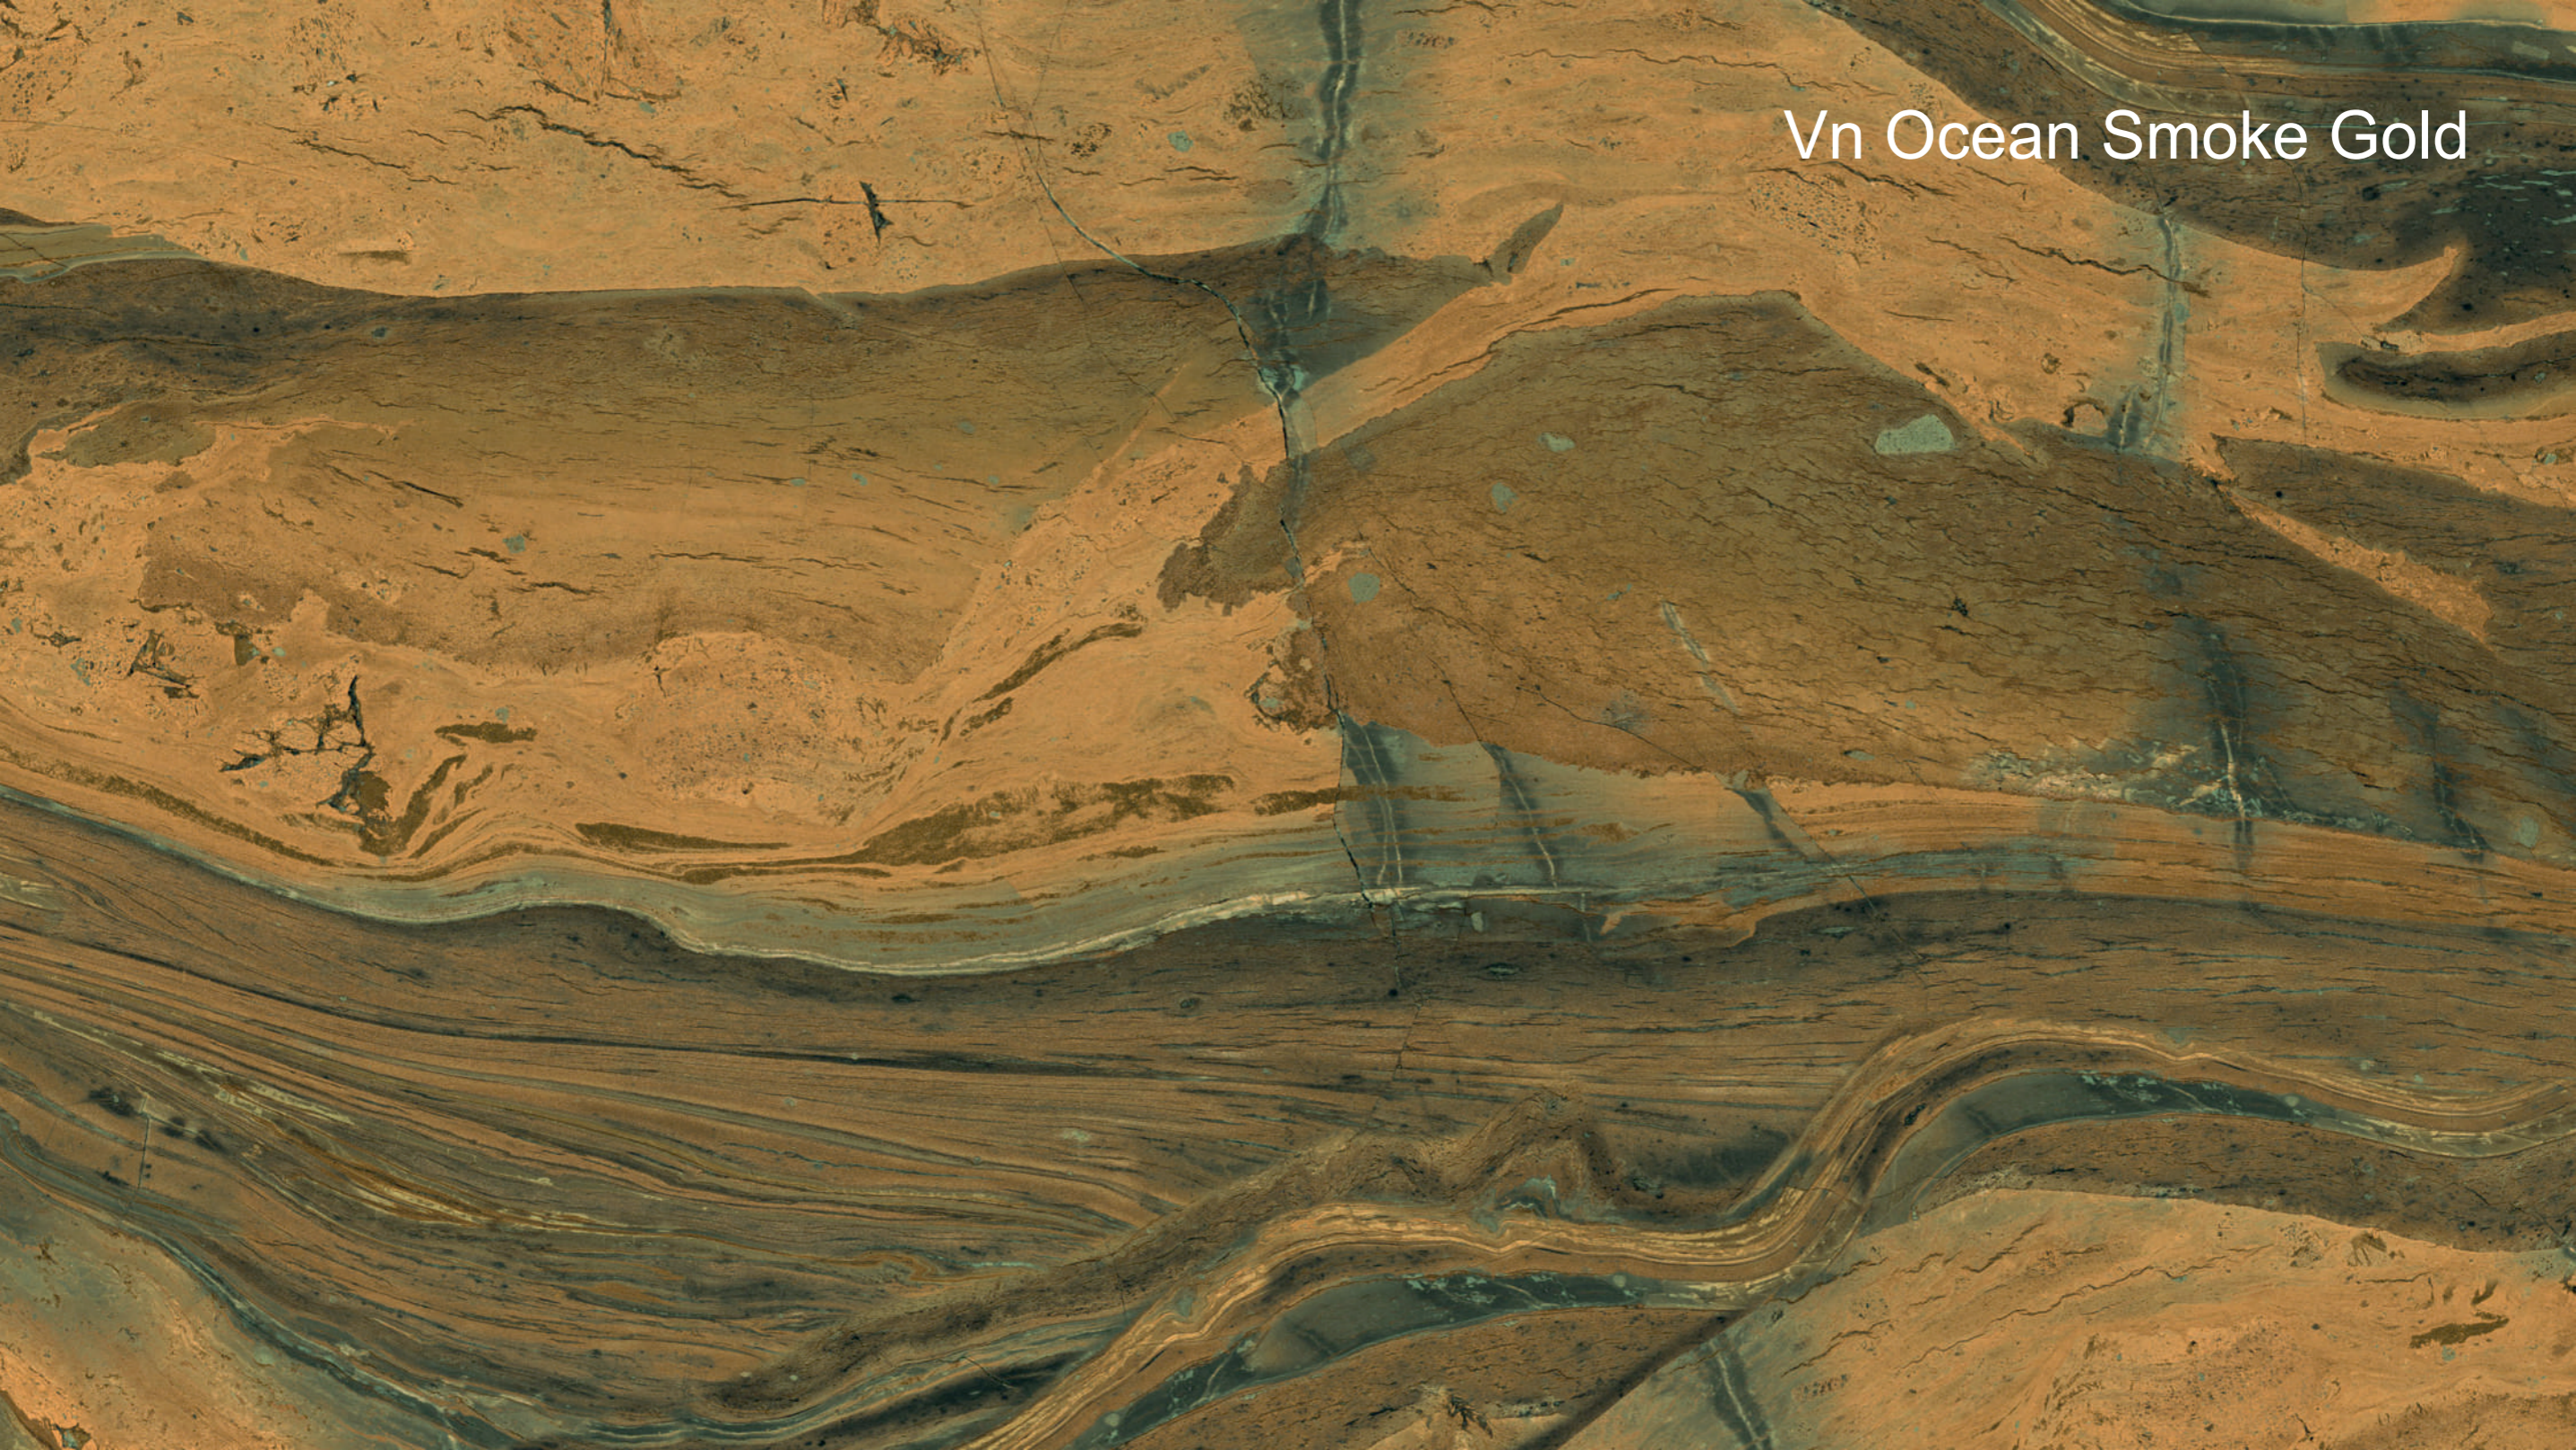

These tiles are designed to resist scratches and sustain high temperatures without succumbing to any damage.

The image shows a close-up of a marbled paper pattern. The background is a deep, dark charcoal or black color. Overlaid on this are intricate, organic veins of white and light grey. These veins vary in thickness and shape, some appearing as thin, delicate lines while others are more substantial and irregular. The overall effect is reminiscent of natural stone or biological tissue. The text 'Hg Kebon Aqua' is printed in the upper right corner in a clean, white, sans-serif font.

The background is a detailed marble pattern with a light grey base and intricate, branching veins of gold and beige. The veins vary in thickness and direction, creating a complex, organic web-like structure. The overall appearance is that of a high-quality natural stone or a sophisticated digital marble texture.

The image displays a close-up of Statuario Porsche marble, characterized by its light cream base and intricate, flowing veins of beige, tan, and dark brown. The veins are irregular and organic, creating a complex, artistic pattern. The text 'Statuario Porsche' is positioned in the upper right corner in a clean, black, sans-serif font.
